What's the vibe today . . .

On-the-go gear

Let's face it, as parents, we are always on the go. Errands, play dates, music classes, baby drop-ins and more consume a large part of the day. Babyvibe has found several products that make parenting on the go simple yet fun.

Super Goober

Being a parent and staying hip and chic has never been easier while being on the go with little ones thanks to the **Goober Baby Designs** Change Purse. Small enough to fit in a diaper bag and large enough to hold wipes and a few diapers, the change purse is ultra chic and cool. Made in Canada and available in a variety of modern styles and colours, Babyvibe loves that two local moms have finally spiced up everyday items for parents. Even better, the purse is machine washable.

Goober Baby also makes a lunch bag that is functional and stylish with a see-through front, waterproof interior, is easy to close and can hold snacks of all sorts. Check out other new products at www.gooberbaby.com.

Available at local retailers **Baby Belle Boutique** in Oakridge Centre, **Bug-a-Boo Boutique** in the heart of Fort Langley, **Chick Pea** at East 1st Avenue and Commercial Drive in Vancouver, and online retailers:
